Sleepeeze

ESTABLISHED 1924

LUXURY HOTEL COLLECTION

OUR STORY since 1924

Sleepeeze was founded in 1924 by the Price family in Croydon, London, who first started manufacturing flock and hair mattresses, as well as other associated products. In the late 1920's, Sleepeeze was one of the first manufacturers to produce pocket spring mattresses.

Today, every single Sleepeeze product is still made in the UK at our factory based in Rochester, Kent. A Royal Warrant from His Royal Highness The Prince of Wales is a mark of excellence and the best of British quality, underlying Sleepeeze's reputation for creating superior products and delivering excellent service. You will find our beds in some of the finest 5 star luxury hotels around the country.

With traditional family values at the heart of our business, we support various charities and truly believe in doing whatever we can to help support our local community. To date we have donated over £250,000 between Macmillan Cancer Support, the British Heart Foundation, the Queen Elizabeth Scholarship Trust and our local hospice, ellenor.

BY ROYAL APPOINTMENT

Sleeppeeze is proud to hold a Royal Warrant from HRH The Prince of Wales, originally granted in 1985. Royal Warrants are regarded as a sign of the best in British design and are only granted to those who demonstrate the highest standards of excellence, quality and service with responsible management and production methods.

Holding a Royal Warrant reinforces Sleeppeeze's reputation for creating superior quality beds and provides reassurance that your bed is built to last. Sleeppeeze continues to embrace its status as a Royal Warrant holder by creating a luxury range of beds dedicated to raising funds and awareness of the Queen Elizabeth Scholarship Trust (QEST), an initiative by the Royal Warrant Holders Association that helps fund the education of talented craftspeople through college courses, apprenticeships and one-on-one training with master artisans. This supports and encourages the development of outstanding individuals who demonstrate extraordinary talent in British crafts.

OUR ENVIRONMENT

Whilst striving for quality and great value for our customers, sustainability is at the forefront of our business. This approach requires all of our timber suppliers to be Forest Stewardship Council (FSC®) certified, ensuring the materials purchased are from sustainably managed forests. We also ensure that none of the waste from our factory goes to landfill.

We are committed to using environmentally friendly and sustainable materials in our products including wool, silk, cashmere and horsehair. These are not only natural fibres, but also help regulate your body temperature throughout the night for a deeper night's sleep.

Sleepzee is an active supporter of The Campaign For Wool, a global endeavour initiated by its patron HRH The Prince of Wales, which supports British sheep farmers and promotes the unique, natural, renewable and biodegradable benefits of wool.

Our dedication to helping preserve our environment and reduce our carbon emissions has resulted in us achieving a Carbon Neutral organisation status. As part of our carbon offsetting initiative, we work with local schools in a tree planting programme, which allows us to share with young people the importance of sustainability and caring for our environment.

CONNECT YOURSELF WITH THE ULTIMATE COMFORT

LUXURY HOTEL COLLECTION MATTRESS LINKING PAD

Sleepeeze's mattress linking pad is the ultimate solution to enhance sleep comfort and support, both for hotel guests and for general use in a home environment.

Originally designed for use with Sleepeeze's super-king zip and link mattress applications in prestigious 5-star hotels, the linking pad conceals not only the central zip function between the two single mattresses – more importantly, its comfort topper feature also creates a seamless and sumptuously comfortable sleep surface, which has meant that this product has become popular for use with large one-piece mattresses as a luxurious mattress topper.

The linking pad is extremely quick and easy to install and remove, providing additional longevity to the mattress itself.

The linking pad also offers the opportunity to affordably change what is essentially the top of the mattress, giving additional piece of mind that you are sleeping on a pristine, hygienic and high quality bed.

OUR FINEST FILLINGS

Sleeppeeze mattresses offer a unique combination of traditional, natural and state-of-the-art fillings and support systems which deliver a level of sleep comfort to suit everyone. Each filling is used as an essential ingredient that works with all other layers in the mattress to provide ultimate comfort, support and a sense of pure luxury that is synonymous with the Sleeppeeze brand.

Natural Wool

A soft, springy and breathable fibre with exceptional moisture wicking properties that help keep you cool in the summer and warm in the winter.

Sleeppeeze is proud to support:
The Campaign For Wool.

Natural Cotton

A soft, cooling and natural fibre that is perfect for wicking moisture away from the body during sleep and has excellent breathability. This helps with temperature regulation and promotes a cooler, and more comfortable sleep environment.

Natural Silk

Strong and durable, silk is a soft and highly resilient fibre that helps regulate your body temperature throughout the night by allowing air to pass quickly through the fibres, helping to promote a more comfortable night's sleep.

Natural Cashmere

Soft to the touch, but highly resilient, cashmere adds an outstanding softness to the mattress, as well as having great moisture wicking properties to keep you cool and dry throughout the night.

Natural Horsehair

Horsehair fibres are incredibly strong and springy, so over time they don't break or lose their flexibility ensuring continuous comfort and support. Each fibre helps transport heat away from the body, wicking away moisture and helping to regulate body temperature for a more comfortable night's sleep.

Talay Latex

Naturally derived from the rubber tree, Talalay latex is moulded with air pockets for breathability. It is one of the most durable and natural materials available, recovering its shape instantly when pressure is removed, ensuring superior support and pressure relief throughout the night. Latex is also anti-microbial and dust mite resistant, ideal for allergy sufferers.

StayCool Gel™

StayCool™ Advanced Gel is a supportive and breathable gel that is pressure sensitive, not heat sensitive. It channels away excess body heat, preventing you overheating and helping to keep you cool during the night at your optimum body temperature of 37°C. It also provides even weight distribution and relief on pressure points.

Traditional Pocket Springs

Pocketed springs are regarded as the most superior spring system in any mattress. Sleeppeeze uses unique barrel-shaped, individually pocketed springs that move independently, contouring to your own individual weight and shape for optimum support and posture.

SoftTouch® Pocket Springs

Individually pocketed SoftTouch® springs are a highly responsive and durable pocket spring system with a unique shape that provides an initial softness that becomes progressively firmer as more weight is applied. The result is superior comfort and support for varying body weights and sleeping patterns.

SPRUNG EDGE OR PLATFORM-TOP DIVAN BASE OPTIONS

Sleepzee divan bases are made to the highest specifications using quality timber and materials along with robust construction techniques. This ensures that the bases provide the best possible platform for the Sleepzee mattress of your choice.

STYLE OPTIONS:

Sprung edge base

Platform-top base
Under storage

Platform-top base

Slimline base
on legs

Our most versatile divan base is available at 40cm** high as either a platform top or sprung edge.

Sprung bases are the most luxurious choice of divan base and feature a top layer of springs that run from edge to edge. These act as a shock absorber to offer cushioned support and a softer sleep surface for enhanced comfort.

** Height includes castors.

Fabric colours:

Please see our swatch book for our current choice of attractive, modern fabric colours.

MATTRESS LINKING PAD OPTION:

Sleepzee's Mattress Linking Pad is the ultimate solution to enhancing the sleep comfort and support for your visiting guests.

Designed for use with Sleepzee's superking zip and link mattresses, the linking pad not only conceals the central zip between the two single mattresses, it more importantly creates a seamless sleep surface with a choice of two comfort feels: Soft and sumptuous or firmer orthopaedic feel.

The linking pad is easy and quick to install and remove, and provides extra protection and longevity to the mattress itself. It also provides the opportunity to regularly change what is essentially the top of the mattress, giving peace of mind to your visiting guests that they are sleeping on a pristine, hygienic, quality bed whenever they stay.

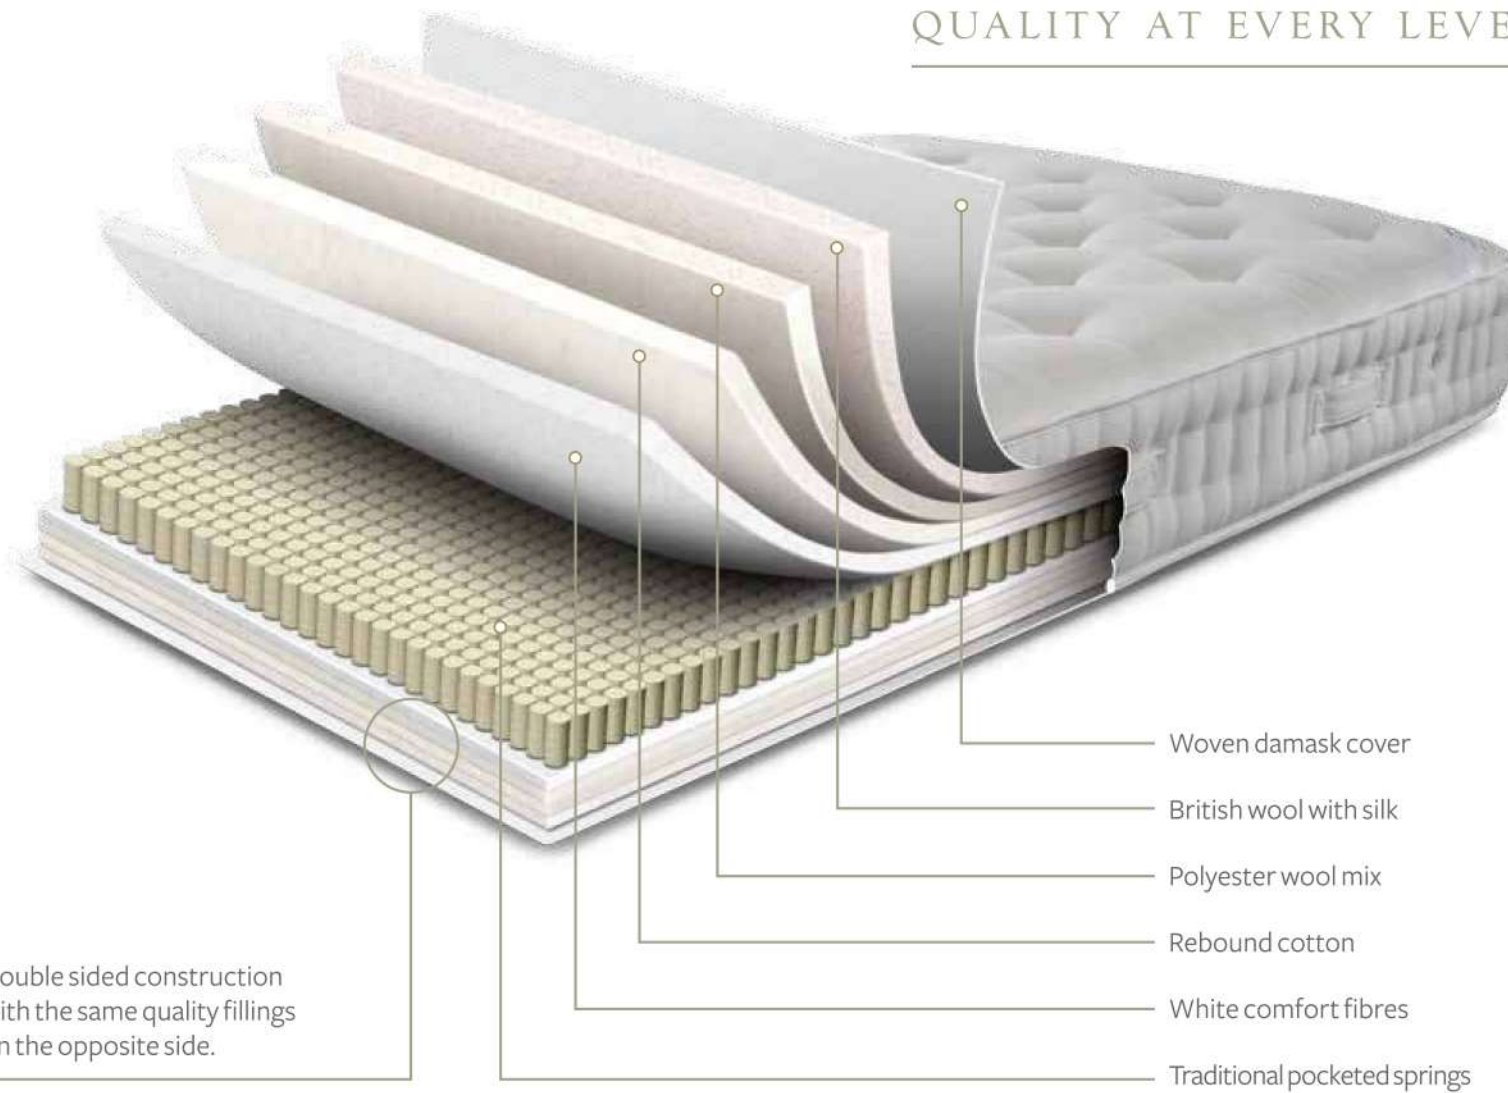

HOTEL EDWARDIAN

The Hotel Edwardian mattress combines 2000 individual pocketed springs with natural fillings including British wool blended with luxurious silk and cotton, all helping to regulate body temperature and providing the most outstanding and uncompromising support and comfort.

MADE IN THE UK

QUALITY AT EVERY LEVEL
